

Product Fact Sheet

MLM Software

Product Overview

MLM software facilitates multi-level marketing operations, managing commissions, downline tracking, and product sales. It automates processes, enhances network management, and provides analytics for efficient business operations.

PRODUCT FEATURES

User Management	Allows administrators to manage user accounts, including registration, profile management, and permissions.	
Compensation Plans	Supports various compensation structures such as binary, matrix, unilevel, and hybrid plans, facilitating commission calculations and payouts.	
Downline Tracking	Tracks and visualizes the hierarchical structure of distributors and their recruits, enabling easy management of downline activities.	
Product Management	Manages product inventory, pricing, descriptions, and categorization, facilitating sales and distribution within the network.	
Commission Management	Automates commission calculations based on sales volume, ranks, bonuses, and other criteria defined by the compensation plan.	
E-Wallet Integration	Integrates e-wallet or virtual wallet functionality for secure storage and management of commissions, bonuses, and payouts.	

Product Fact Sheet

MLM Software

Product Overview

MLM software facilitates multi-level marketing operations, managing commissions, downline tracking, and product sales. It automates processes, enhances network management, and provides analytics for efficient business operations.

PRODUCT FEATURES

Genealogy Viewer	Provides a graphical representation of the network structure, allowing users to visualize their downline and track progress.	
Replicated Websites	Offers customizable replicated websites for distributors to promote products, recruit members, and track their business performance.	
Training and Support	Provides resources, training materials, and support tools to educate distributors and help them succeed in their MLM business.	
Marketing Tools	Offers marketing resources such as email templates, landing pages, banners, and social media sharing features to assist distributors in promoting products and recruiting new members.	
Reporting and Analytics	Generates comprehensive reports and analytics on sales, commissions, member activity, and overall performance to aid decision-making and strategy.	
Integration Capabilities	Integrates with third-party tools and platforms such as payment gateways, CRM systems, and analytics tools for enhanced functionality and data management.
