

SOFTECH SOLUTION

SCHOOL MANAGEMENT SOFTWARE

ACADEMIA automates administrative tasks like student enrollment, attendance tracking, fee management, course scheduling, grading, reporting, and communication between stakeholders, enhancing efficiency and organization in educational institutions.

Student Information Management

Manages student records, including demographics, contact details and academic history.

01

Admissions Management

Streamlines the admissions process, including application forms, documentation, fee payments, and enrollment.

02

Attendance Tracking

Monitors student attendance, generates reports, and sends notifications for absenteeism to parents and administrators.

03

Grading and Assessment

Records student grades, calculates GPAs, manages assessments, and generates report cards.
