

**SOFTECH SOLUTION**

# **SOFTWARE FOR FRUITS & VEGETABLE COMMISSION AGENTS**

E-MANDI ERP software manages procurement, sales, inventory, payments, and logistics for fruit and vegetable markets, facilitating efficient operations, transparency, and profitability in agricultural trading and distribution.

## **Procurement Management**

Facilitates the purchase of fruits and vegetables from farmers or wholesalers, including price negotiation and order processing.

01

## **Inventory Management**

Tracks the quantity, quality, and location of produce in stock, enables stock replenishment, and minimizes wastage.

02

## **Invoice Customization**

Customizable invoice templates to include necessary details required for GST compliance.

03

## **Sales Management**

Manages sales transactions with retailers, restaurants, or consumers, including order processing, invoicing, and delivery scheduling.
